

**REPORT OF THE MANAGEMENT REVIEW MEETING
DEPARTMENT OF MATHEMATICS
POST-MIDTERM EXAM SERIES OF SEMESTER II 2021/2022**

OCTOBER 17, 2022

Doctoral Programme in Mathematics

Here are the results of the evaluation of the Doctoral Programme in Mathematics.

No		Response/Follow-Up	Person responsible
1	Lectures:		
1.1	Guidance/Publication: -		
1.2	Dissertation: -		
2	Academic: Overall, academic activities have been running smoothly and there have been improvements from year to year.		
	Is the 2022 curriculum guide available?	The curriculum guide is available on the websites of the faculty and DP-Math.	Faculty
	What are the facilities available for students? Where can the rules and regulations for students be read?	The information about rules and facilities can be read on the websites of DP-Math and the Department.	DP-Math, Department
3	Facility: - The sink faucet in the SIC is releasing water slowly.	Followed up by the Department. DP-Math informed students how to manage the releasing water in the sink.	Department
	Information about facilities for reimbursement of publication/seminar fees was not obtained from the study program but from senior students.	Funding assistance is available for attending seminars etc. and publications. The information can be seen on the information board. DP-Math regularly informs the students via WhatsApp Group.	DP-Math
	Are LaTeX templates provided for proposals, Beamer, and others on the DP-Math's website? Is there a guide for using LaTeX templates?	The comprehensive Beamer template is provided by DP-Math. Students may come to the administration office. There is regular training for students due to LaTeX and other software, such as R, Python, and Matlab.	DP-Math Department
	The workspace could be further improved to be more conducive. Desks should not be computer desks. Cleanliness in the student workspace and kitchen needs to be maintained.	The DP-Math will follow up on this. The desks have been replaced. Cleanliness requires cooperation between the cleaning staff, the study programme, and the students.	DP-Math

	In the female workspace, the desk used for the computer is not suitable for writing simultaneously.	Will be replaced soon. Locker keys have been changed. Desks have been rearranged.	DP-Math Department
	The available printer in the workspace is only one. Is there a mechanism for its use? Can a color printer be provided?	Paper and ink are provided. For usage, please contact the admin. A color printer is not provided because its usage is very minimal.	DP-Math
	The library has subscribed to many journals, but journals from Springer and Taylor and Francis cannot be accessed yet. We hope access can be expanded in the future.	The Department library will soon facilitate access to these journals.	Department
	A supercomputer needs to be provided so that its performance is faster and can be operated from anywhere, not just from the lab.	Students are advised to use open-source software. The Department facilitates computing.	Department
4	Adminstration: -		
5	Human Resources : -		
6	Evaluasation:-		

Chair of the Curriculum Committee and Quality Assurance Group of the Department of Mathematics, Faculty of Mathematics and Natural Sciences, Universitas Gadjah Mada.

(Budi Surodjo, Dr., MSi.)
